## MOODY NATIONAL THREE PROPERTY PORTFOLIO

Notes to Financial Statements

December 31, 2009 and 2008

(Dollars in thousands)

### (1) Organization

The Moody National Three Property Portfolio includes the following hotels:

The Courtyard by Marriott® Altoona in Altoona, Pennsylvania

The SpringHill Suites by Marriott® Washington in Washington, Pennsylvania

The Residence Inn by Marriott® White Plains in White Plains, New York

The three hotel properties (collectively “the Company” or “the Hotels”) are owned by three single member Delaware limited liability companies directly or indirectly owned and subject to management control by Brett C. Moody (“Moody”). The Residence Inn in White Plains, New York is leased on a long term basis to another single member Delaware limited liability company that is also owned by Moody (“the Lessee”).

The Company operates in the hospitality and lodging industry and is subject to risks common to companies in that industry.

The Hotels are operated under franchise agreements with Marriott International and are subject to hotel management agreements with Concord Hospitality Enterprises (“Concord”) (Note 6) and asset management agreements with Moody National Management LP (“the Moody Operator”) (Note 8).

### (2) Summary of Significant Accounting Policies

#### *Basis of Presentation*

The combined financial statements have been prepared on the accrual basis of accounting and in accordance with accounting principles generally accepted in the United State of America. All intercompany balances and transactions including those between the Hotels and Lessee have been eliminated in combination. These financials are being presented on a combined basis as the Hotels and the Lessee are under common management and control.

#### *Use of Estimates*

The preparation of the financial statements requires management to make estimates and assumptions that affect the reported amounts of certain assets and liabilities and disclosure of contingent assets and liabilities at the balance sheet date and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

#### *Investment in Hotel Properties*

Investment in hotel properties consists primarily of land, buildings, improvements and related fixtures and equipment. Investment in hotel properties is stated at cost and is depreciated using the straight-line method over estimated useful lives of 39 years for building, 5 to 15 years for improvements, 5 and 7 years for furniture, fixtures and equipment and 5 years for computer

equipment. Major renewals and improvements are capitalized, while maintenance and repairs are expensed when incurred. When property and/or equipment are sold or retired, their cost and related accumulated depreciation are eliminated from the accounts and the resulting gain or loss is reflected in operations.

### ***Impairment of Long-Lived Assets***

The Company periodically evaluates the recoverability of its property and equipment when events or circumstances indicate that the asset may be impaired. This evaluation consists of a comparison of the carrying value of the asset with the asset's expected future cash flows, undiscounted and without interest costs. Estimates of expected future cash flows represent management's best estimate based on reasonable and supportable assumptions and projections. If the expected future undiscounted cash flows exceed the carrying value of the asset, no impairment is recognized. If expected future undiscounted cash flows are less than the carrying value of the asset then impairment is indicated. Such impairment is measured as the difference between the carrying value of the asset and its fair market value. During 2009 and 2008, there were no events or changes in circumstances indicating that the carrying value of the property and equipment may not be recoverable.

### ***Cash and Cash Equivalents***

All highly liquid investments with a maturity of three months or less when purchased are considered to be cash equivalents. The Hotels maintain their cash accounts at various major financial institutions within the United States of America. At times, deposits may be in excess of federally insured limits. The Hotels have not experienced any losses on cash deposits with the financial institutions.

### ***Restricted Cash***

The Hotel mortgage loan agreements requires the Company to fund 4% of gross revenues on a monthly basis for furnishings, fixtures, equipment and general repair maintenance reserve of the Hotels in an account to be held by the lender ("Replacement Reserves").

In addition, insurance and real estate tax reserves are required to be deposited into an escrow account to be held by the lenders (see Note 4).

### ***Deferred Financing Costs***

The Company's deferred financing costs relate to fees and costs incurred to obtain long-term financing to purchase the Hotels. These costs are amortized using the straight-line method, which approximates the effective interest method, over the life of the applicable borrowing and are included as a component of interest expense. Capitalized deferred financing costs are recorded in Hotel receivables and other assets and totaled \$1,296 as of December 31, 2009 and 2008. Accumulated amortization was \$850 and \$494 as of December 31, 2009 and 2008, respectively, and approximately \$90 and \$356 will be amortized in the years ending December 31, 2011 and 2010, respectively.

### **Revenue Recognition**

Room revenues are recognized the night of occupancy. Cash received prior to guest arrival is recorded as an advanced deposit from customers and recognized as revenue at the time of occupancy.

Other revenues are also recognized for food, beverage, telephone charges and various ancillary services performed at the time the service is provided.

### **Fair value of Non-Financial Assets and Liabilities**

Effective January 1, 2009, the Company adopted a new accounting pronouncement which affects how fair value is determined for non-financial assets that are measured at fair value on a non-recurring basis such as intangibles and long-lived assets, including the incorporation of market participant assumption in determining the fair value. The adoption of this pronouncement did not have a material impact on the Company's financial position or results of operations.

### **Income Taxes**

The Company has elected to be a limited liability company for federal tax purposes. As such, no federal or state income taxes are payable by the Company and none have been provided for in the accompanying financial statements. In accordance with partnership taxation, each of the partners is responsible for reporting its share of taxable income or loss. The Company analyzed its material tax positions and determined that it has not taken any uncertain tax positions.

### **(3) Investment in Hotel Properties, net**

Depreciation is computed using the straight-line method over the estimated useful lives of the assets, 5 years for furniture and equipment, 15 years for land improvements and 40 years for buildings and improvements.
  - 9) The Company was formed on October 26, 2009 and completed its IPO on April 21, 2010 and thus there was no corresponding corporate general and administrative expense until April 21, 2010.
