CHATHAM LODGING TRUST
Notes to the Consolidated Financial Statements
(unaudited)

1. Organization

Chatham Lodging Trust (“we,” “us” or the “Company”) was formed as a Maryland real estate investment trust on October 26, 2009. The Company is internally-managed and invests primarily in upscale extended-stay and premium-branded select-service hotels. The Company has elected to be treated as a real estate investment trust for federal income tax purposes (“REIT”).

The net proceeds from our share offerings are contributed to Chatham Lodging, L.P., our operating partnership (the “Operating Partnership”), in exchange for partnership interests. Substantially all of the Company’s assets are held by, and all operations are conducted through, the Operating Partnership. The Company is the sole general partner of the Operating Partnership and owns 100% of the common units of limited partnership interest in the Operating Partnership (“common units”). Certain of the Company’s executive officers hold vested and unvested long-term incentive plan units in the Operating Partnership (“LTIP units”), which are presented as non-controlling interests on our consolidated balance sheets.

As of June 30, 2023, the Company owned 39 hotels with an aggregate of 5,915 rooms located in 16 states and the District of Columbia.

To qualify as a REIT, the Company cannot operate the hotels. Therefore, the Operating Partnership and its subsidiaries lease the Company’s wholly owned hotels to taxable REIT subsidiary lessees (“TRS Lessees”), which are wholly owned by the Company’s taxable REIT subsidiary (“TRS”) holding company. Each hotel is leased to a TRS Lessee under a percentage lease that provides for rental payments equal to the greater of (i) a fixed base rent amount or (ii) a percentage rent based on hotel revenue. Lease revenue from each TRS Lessee is eliminated in consolidation.

The TRS Lessees have entered into management agreements with a third-party management company that provides day-to-day management for the hotels. As of June 30, 2023, Island Hospitality Management LLC (“IHM”), which is 100% owned by Jeffrey H. Fisher, the Company’s Chairman, President and Chief Executive Officer, managed all of the Company’s hotels.

2. Summary of Significant Accounting Policies

Basis of Presentation

The accompanying unaudited interim consolidated financial statements and related notes have been prepared in accordance with U.S. generally accepted accounting principles (“GAAP”) and in conformity with the rules and regulations of the Securities and Exchange Commission (“SEC”) applicable to interim financial information. These unaudited consolidated financial statements, in the opinion of management, include all adjustments consisting of normal, recurring adjustments which are considered necessary for a fair statement of the consolidated balance sheets, consolidated statements of operations, consolidated statements of equity, and consolidated statements of cash flows for the periods presented. Interim results are not necessarily indicative of full year performance due to seasonal and other factors, including the timing of the acquisition or sale of hotels.

The consolidated financial statements include all of the accounts of the Company and its wholly owned subsidiaries. All intercompany balances and transactions are eliminated in consolidation. The accompanying unaudited consolidated financial statements should be read in conjunction with the audited financial statements prepared in accordance with GAAP, and the related notes thereto as of December 31, 2022, which are included in the Company’s Annual Report on Form 10-K for the year ended December 31, 2022.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the balance sheet date and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates.

Recently Issued Accounting Standards

In March 2020, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2020-04 Reference Rate Reform (Topic 848). ASU 2020-04 contains practical expedients for reference rate reform-related activities that impact debt, leases, derivatives and other contracts. The guidance in ASU 2020-04 is optional and may be elected over time as reference rate reform activities occur. In December 2022, the FASB issued ASU No. 2022-06 Reference Rate Reform (Topic 848). ASU 2022-06 amended and deferred the sunset provision in ASU 2020-04 from December 31, 2022 to December 31, 2024. As of June 30, 2023, the Company does not anticipate that this guidance will have a material impact on its consolidated financial statements; however, the Company will continue to evaluate the impact that ASU 2020-04 may have on its consolidated financial statements and related disclosures.

3. Acquisition of Hotel Properties

On March 8, 2022, the Company acquired the Hilton Garden Inn Destin Miramar Beach ("HGI Destin") hotel property in Miramar Beach, FL for \$31.0 million. The Company allocated the purchase price of the hotel based on the estimated fair values of the assets on the date of acquisition. Property acquisition costs of \$48 thousand were capitalized in 2022.

4. Disposition of Hotel Properties

On May 6, 2022, the Company sold the Hilton Garden Inn Boston-Burlington ("HGI Burlington") hotel property in Burlington, MA for \$23.2 million and recognized a gain on sale of the hotel property of \$0.5 million. Proceeds from the sale were used to repay amounts outstanding on the Company's revolving credit facility.

On May 13, 2022, the Company sold a portfolio of three hotels, the Homewood Suites Dallas-Market Center ("HWS Dallas") hotel property in Dallas, TX, the Courtyard Houston West University ("CY Houston West U") hotel property in Houston, TX, and the Residence Inn Houston West University ("RI Houston West U") hotel property in Houston, TX, for \$57.0 million, and recognized a gain on sale of the hotel properties of \$1.8 million. Proceeds from the sale were used to repay amounts outstanding on the Company's revolving credit facility.

The sales did not represent a strategic shift that had or will have a major effect on the Company's operations and financial results and did not qualify to be reported as discontinued operations.

5. Allowance for Doubtful Accounts

The Company maintains an allowance for doubtful accounts at a level believed to be adequate to absorb estimated probable losses. That estimate is based on past loss experience, current economic and market conditions and other relevant factors. The allowance for doubtful accounts was \$0.4 million and \$0.3 million as of June 30, 2023 and December 31, 2022, respectively.

- The interest rate for the revolving credit facility is variable and based on one-month term secured overnight financing rate ("SOFR") plus a spread of 1.50% to 2.25% based on the Company's leverage and a credit spread adjustment of 0.10%.

2. The interest rate for the unsecured term loan is variable and based on one-month term SOFR plus a spread of 1.45% to 2.20% based on the Company's leverage and a credit spread adjustment of 0.10%.
3. On August 4, 2020, a subsidiary of Chatham entered into an agreement with affiliates of Mack Real Estate Credit Strategies to obtain a \$40.0 million loan to fund the remaining construction costs of the Home2 Suites by Hilton Woodland Hills Los Angeles ("Home2 Woodland Hills") hotel development. The loan had an initial term of 4 years and there were two six-month extension options. The interest rate on the loan was LIBOR, subject to a 0.25% floor, plus a spread of 7.5%. The loan was repaid on February 1, 2023.

On October 28, 2022, the Company entered into a \$215.0 million unsecured revolving credit facility and a \$90.0 million unsecured delayed-draw term loan facility that replaced the Company's previous \$250.0 million revolving credit facility that was scheduled to mature on March 8, 2023. The revolving credit facility has an initial maturity of October 28, 2026 and provides two six-month extension options. The unsecured delayed-draw term loan facility has an initial maturity of October 28, 2025 and provides two one-year extension options. On December 19, 2022, the Company executed an amendment to its unsecured revolving credit facility, increasing commitments by \$45.0 million for a total borrowing capacity of \$260.0 million.

During the six months ended June 30, 2023, the Company repaid the \$39.3 million construction loan on the Home2 Woodland Hills hotel property, and the maturing mortgage loans of \$14.4 million on the Homewood Suites San Antonio hotel property, \$19.7 million on the Residence Inn Tysons hotel property and \$16.0 million on the Courtyard Houston hotel property. The Company utilized borrowings under its unsecured delayed-draw term loan to repay these loans and no prepayment penalties were incurred.

The Company estimates the fair value of its fixed rate debt by discounting the future cash flows of each instrument at estimated market rates. All of the Company's mortgage loans are fixed-rate. Rates take into consideration general market conditions, quality and estimated value of collateral and maturity of debt with similar credit terms and are classified within level 3 of the fair value hierarchy. The estimated fair value of the Company's fixed rate debt as of June 30, 2023 and December 31, 2022 was \$365.2 million and \$412.7 million, respectively.

The Company estimates the fair value of its variable rate debt by taking into account general market conditions and the estimated credit terms it could obtain for debt with similar maturity and is classified within level 3 of the fair value hierarchy. As of June 30, 2023, the Company's variable rate debt consisted of borrowings under its revolving credit facility and its unsecured delayed-draw term loan. The estimated fair value of the Company's variable rate debt as of June 30, 2023 and December 31, 2022 was \$90.0 million and \$39.3 million, respectively.

The Company's mortgage debt agreements contain "cash trap" provisions that are triggered when the hotel's operating results fall below a certain debt service coverage ratio or debt yield. When these provisions are triggered, all of the excess cash flow generated by the hotel is deposited directly into cash management accounts for the benefit of the lenders until a specified debt service coverage ratio or debt yield is reached. Such provisions do not allow the lender the right to accelerate repayment of the underlying debt. As of June 30, 2023, four of our mortgage debt lenders have enforced cash trap provisions resulting in \$5.6 million of restricted cash. The Company does not expect that such cash traps will affect its ability to satisfy its short-term liquidity requirements.

Future scheduled principal payments of debt obligations as of June 30, 2023, for the current year and each of the next five calendar years and thereafter are as follows (in thousands):

Accounting for Derivative Instruments

The Company had interest rate cap agreements to hedge against interest rate fluctuations related to the construction loan for the Home2 Woodland Hills hotel. The Company recorded its derivative instruments on the balance sheet at their estimated fair values. Changes in the fair value of the derivatives are recorded each period in current earnings or in other comprehensive income, depending on whether a derivative is designated as part of a hedging relationship and, if it is, depending on the type of hedging relationship. The Company's interest rate caps were not designated as a hedge but to eliminate the incremental cost to the Company if the one-month LIBOR were to exceed 3.5%. Accordingly, the interest rate caps were recorded on the balance sheet under prepaid expenses and other assets at the estimated fair value and realized and unrealized changes in the fair value are reported in the consolidated statement of operations. During the six months ended June 30, 2023, the Company terminated its interest rate caps related to the construction loan when the loan was repaid.

8. Income Taxes

The Company's TRS is subject to federal and state income taxes. Income tax expense was zero for the three and six months ended June 30, 2023 and 2022.

As of each reporting date, the Company's management considers new evidence, both positive and negative, that could impact management's view with regard to future realization of deferred tax assets. The Company's TRS is expecting continued taxable losses in 2023. As of June 30, 2023, the TRS continues to recognize a full valuation allowance equal to 100% of the net deferred tax assets due to the uncertainty of the TRS's ability to utilize these net deferred tax assets. Management will continue to monitor the need for a valuation allowance.

On August 16, 2022, the United States enacted the Inflation Reduction Act of 2022, which contains tax-related provisions, including a 15% book-income alternative minimum tax on large corporations with financial accounting profits over \$1 billion effective for tax years beginning on or after January 1, 2023, a 1% excise tax on stock repurchases, and the extension and expansion of renewable energy incentives and tax credit programs. The Company is monitoring for potential impacts, but this new law is not expected to have a significant impact on Chatham.

9. Dividends Declared and Paid

Common Dividends

The Company suspended common share dividends beginning after the payment of the March 27, 2020 dividend due to a decline in operating performance caused by the COVID-19 pandemic. The Company reinstated common share dividends during the fourth quarter of 2022. The Company declared total common share dividends of \$0.07 per share and distributions on LTIP units of \$0.07 per unit for the three months ended June 30, 2023, and \$0.14 per share and unit for the six months ended June 30, 2023.

June	6/30/2023	7/17/2023	0.41406
Total 2023			\$ 0.82812

10. Shareholders' Equity

Common Shares

The Company is authorized to issue up to 500,000,000 common shares of beneficial interest, \$0.01 par value per share ("common shares"). Each outstanding common share entitles the holder to one vote on all matters submitted to a vote of shareholders. Holders of the Company's common shares are entitled to receive dividends when authorized by the Company's Board of Trustees. As of June 30, 2023, 48,856,806 common shares were outstanding.

In January 2021, we established an "at-the-market" equity offering program (the "ATM Program") whereby, from time to time, we could publicly offer and sell our common shares having an aggregate offering price of up to \$100.0 million by means of ordinary brokers transactions on the New York Stock Exchange (the "NYSE"), in negotiated transactions or in transactions deemed to be "at-the-market" offerings as defined in Rule 415 under the Securities Act of 1933, as amended. Cantor Fitzgerald & Co., Barclays Capital Inc., BMO Capital Markets Corp., BofA Securities, Inc., BTIG, LLC, Citigroup Global Markets Inc., Regions Securities LLC, Stifel, Nicolaus & Company, Incorporated and Wells Fargo Securities act as sales agents under the ATM Program. The Company did not issue any shares under the ATM Program during the three and six months ended June 30, 2023. As of June 30, 2023, there was approximately \$77.5 million in common shares available for issuance under the ATM Program.

In December 2017, we established a \$50.0 million dividend reinvestment and stock purchase plan. We filed a new \$50.0 million shelf registration statement for the dividend reinvestment and stock purchase plan (the "DRSPP") on December

22, 2020 to replace the prior plan. Under the DRSP, shareholders may purchase additional common shares by reinvesting some or all of the cash dividends received on common shares. Shareholders may also make optional cash purchases of the Company's common shares subject to certain limitations detailed in the prospectuses for the DRSP. During the three months ended June 30, 2023, the Company issued 1,651 common shares under the DRSP at a weighted average price per share of \$9.94, which generated \$16 thousand of proceeds. During the six months ended June 30, 2023, the Company issued 2,866 common shares under the DRSP at a weighted average price per share of \$10.85, which generated \$31 thousand of proceeds. As of June 30, 2023, there was approximately \$47.8 million in common shares available for issuance under the DRSP.

Preferred Shares

The Company is authorized to issue up to 100,000,000 preferred shares of beneficial interest, \$0.01 par value per share, in one or more series.

On June 30, 2021, the Company issued 4,800,000 6.625% Series A Cumulative Redeemable Preferred Shares of Beneficial Interest, \$0.01 par value per share (the "Series A Preferred Shares"), and received net proceeds of approximately \$115.9 million. The Series A Preferred Shares rank senior to common shares with respect to the payment of dividends and distributions of assets in the event of a liquidation, dissolution, or winding up. The Series A Preferred Shares do not have any maturity date and are not subject to mandatory redemptions or sinking fund requirements. The distribution rate is 6.625% per annum of the \$25.00 liquidation preference, which is equivalent to \$1.65625 per annum per Series A Preferred Share. Distributions on the Series A Preferred Shares are payable quarterly in arrears with the first distribution on the Series A Preferred Shares paid on October 15, 2021. The Company may not redeem the Series A Preferred Shares before June 30, 2026 except in limited circumstances to preserve the Company's status as a REIT for federal income tax purposes and upon the occurrence of a change of control. On and after June 30, 2026, the Company may, at its option, redeem the Series A Preferred Shares, in whole or from time to time in part, by paying \$25.00 per share, plus any accrued and unpaid distributions to, but not including, the date of redemption. Upon the occurrence of a change of control, as defined in the Company's declaration of trust, the result of which common shares and the common securities of the acquiring or surviving entity are not listed on the New York Stock Exchange, the NYSE American or NASDAQ, or any successor exchanges, the Company may, at its option, redeem the Series A Preferred Shares in whole or in part within 120 days following the change of control by paying \$25.00 per share, plus any accrued and unpaid distributions through the date of redemption. If the Company does not exercise its right to redeem the Series A Preferred Shares upon a change of control, the holders of Series A Preferred Shares have the right to convert some or all of their shares into a number of common shares based on defined formulas subject to share caps. The share cap on each Series A Preferred Share is 3.701 common shares. As of June 30, 2023, 4,800,000 Series A Preferred Shares were issued and outstanding. During the three months ended June 30, 2023, the Company accrued preferred share dividends of approximately \$2.0 million.

Operating Partnership Units

Holders of common units in the Operating Partnership, if and when issued, will have certain redemption rights, which will enable the unit holders to cause the Operating Partnership to redeem their units in exchange for, at the Company's option, cash per unit equal to the market price per common share at the time of redemption or for common shares on a one-for-one basis. The number of shares issuable upon exercise of the redemption rights will be adjusted upon the occurrence of share splits, mergers, consolidations or similar pro-rata share transactions, which otherwise would have the effect of diluting the ownership interests of limited partners or shareholders. As of June 30, 2023, there were 1,587,317 vested Operating Partnership LTIP units held by current and former employees.

11. Earnings Per Share

The two-class method is used to determine earnings per share because invested restricted shares and unvested LTIP units are considered to be participating shares. The LTIP units held by the non-controlling interest holders, which may be converted to common shares, have been excluded from the denominator of the diluted earnings per common share calculation as there would be no effect on the amounts since limited partners' share of income or loss would also be added back to net income or loss. Unvested restricted shares, unvested long-term incentive plan units and unvested Class A Performance LTIP units that could potentially dilute basic earnings per common share in the future would not be included in the computation of diluted loss per common share, for the periods where a loss has been recorded, because they would have been anti-dilutive for the periods presented. For the six months ended June 30, 2023 and 2022, the Company excluded zero and 210,938, respectively, of unvested shares and units as their effect would have been anti-dilutive.

The following is a reconciliation of the amounts used in calculating basic and diluted net income per common share (in thousands, except share and per share data):

12. Equity Incentive Plan

The Company maintains its Equity Incentive Plan to attract and retain independent trustees, executive officers and other key employees. The plan provides for the grant of options to purchase common shares, share awards, share appreciation rights, performance units and other equity-based awards. The plan was amended on May 24, 2022 to increase the maximum number of shares available under the plan by 1,600,000 shares and extend the term of the plan to March 22, 2032. Share awards under this plan generally vest over three to five years, though compensation for the Company's independent trustees includes share grants that vest immediately. The Company pays dividends on unvested shares and units, except for performance-based shares and outperformance based units, for which dividends on unvested performance-based shares and units are accrued and not paid until those shares or units vest. Certain awards may provide for accelerated vesting if there is a change in control. In January 2023 and 2022, the Company issued 43,378 and 34,672 common shares, respectively, to its independent trustees as compensation for services performed in 2022 and 2021, respectively. As of June 30, 2023, there were 1,252,326 common shares available for issuance under the Equity Incentive Plan.

Restricted Share Awards

From time to time, the Company may award restricted shares under the Equity Incentive Plan as compensation to officers, employees and non-employee trustees. The Company recognizes compensation expense for the restricted shares on a straight-line basis over the vesting period based on the fair market value of the shares on the date of issuance.

A summary of the Company's restricted share awards for the six months ended June 30, 2023 and the year ended December 31, 2022 is as follows:

	For the six months ended		For the year ended	
	June 30, 2023		December 31, 2022	
	Number of Shares	Weighted-Average Grant Date Fair Value	Number of Shares	Weighted-Average Grant Date Fair Value

Vested	—	—	(3,334)	11.47
Non-vested at end of the period	9,123	\$ 11.67	6,666	\$ 11.47

As of June 30, 2023 and December 31, 2022, there were \$69 thousand and \$61 thousand, respectively, of unrecognized compensation costs related to restricted share awards. As of June 30, 2023, these costs were expected to be recognized over a weighted-average period of approximately 1.7 years. For the three months ended June 30, 2023 and 2022, the Company recognized approximately \$12 thousand and \$10 thousand, respectively, and for the six months ended June 30, 2023 and 2022, the Company recognized approximately \$22 thousand and \$19 thousand, respectively, of expense related to the restricted share awards.

Long-Term Incentive Plan Awards

LTIP units are a special class of partnership interests in the Operating Partnership which may be issued to eligible participants for the performance of services to or for the benefit of the Company. Under the Equity Incentive Plan, each LTIP unit issued is deemed equivalent to an award of one common share thereby reducing the number of shares available for other equity awards on a one-for-one basis.

A summary of the Company's LTIP unit awards for the six months ended June 30, 2023 and the year ended December 31, 2022 is as follows:

	For the six months ended June 30, 2023		For the year ended December 31, 2022	
	Number of Units	Weighted-Average Grant Date Fair Value	Number of Units	Weighted-Average Grant Date Fair Value

Time-Based LTIP Awards

On March 1, 2023, the Company's Operating Partnership, upon the recommendation of the Compensation Committee, granted 171,171 time-based LTIP unit awards (the "2023 Time-Based LTIP Unit Award"). The grants were made pursuant to award agreements that provide for time-based vesting (the "LTIP Unit Time-Based Vesting Agreement").

Time-based LTIP unit awards will vest ratably provided that the recipient remains employed by the Company through the applicable vesting date, subject to acceleration of vesting in the event of the recipient's death, disability, termination without cause or resignation with good reason, or in the event of a change of control of the Company. Prior to vesting, a holder is entitled to receive distributions on the LTIP units that comprise the 2023 Time-Based LTIP Unit Awards and the prior year LTIP unit awards set forth in the table above.

Performance-Based LTIP Awards

On March 1, 2023, the Company's Operating Partnership, upon the recommendation of the Compensation Committee, also granted 256,757 performance-based LTIP unit awards (the "2023 Performance-Based LTIP Unit Awards"). The grants were made pursuant to award agreements that have market-based vesting conditions. The Performance-Based LTIP Unit Awards are comprised of Class A Performance LTIP Units that will vest only if and to the extent that (i) the Company achieves certain long-term market-based total shareholder return ("TSR") criteria established by the Compensation Committee and (ii) the recipient remains employed by the Company through the applicable vesting date, subject to acceleration of vesting in the event of the recipient's death, disability, termination without cause or resignation with good reason, or in the event of a change of control of the Company. Compensation expense is based on an estimated value of \$16.64 per 2023 Performance-Based LTIP Unit Award, which takes into account that the number of units that ultimately may vest will depend on the achievement of long-term market-based TSR criteria. The 2023 Performance-Based LTIP Unit Awards have an absolute negative TSR modifier which may reduce payout percentages if the absolute TSR over the measurement period is negative.

The 2023 Performance-Based LTIP Unit Awards may be earned based on the Company's relative TSR performance for the three-year period beginning on March 1, 2023 and ending on February 28, 2026. The 2023 Performance-Based LTIP Unit Awards, if earned, will be paid out between 50% and 200% of target value as follows:

	Relative TSR Hurdles (Percentile)	Payout Percentage
Threshold	25th	50%
Target	55th	100%
Maximum	80th	200%

Payouts at performance levels in between the hurdles will be calculated by straight-line interpolation.

The Company estimated the aggregate compensation cost to be recognized over the service period determined as of the grant date under ASC 718, excluding the effect of estimated forfeitures, using a Monte Carlo approach. In determining the discounted value of the LTIP units, the Company considered the inherent uncertainty that the LTIP units would never reach parity with the other common units of the Operating Partnership and thus have an economic value of zero to the grantee. Additional factors considered in estimating the value of LTIP units included discounts for illiquidity, expectations for future dividends, risk free interest rates, stock price volatility, and economic environment and market conditions.

The grant date fair values of the LTIPs and the assumptions used to estimate the values are as follows:

	Grant Date	Number of Units Granted	Estimated Value Per Unit	Volatility	Dividend Yield	Risk Free Interest Rate

(1) In February 2023, following the end of the measurement period, the Company's TSR met certain criteria and based on the Company's TSR over the measurement period, 234,361 LTIP units vested.

The Company recorded \$1.4 million and \$1.3 million in compensation expense related to the LTIP units for the three months ended June 30, 2023 and 2022, respectively, and \$2.7 million and \$2.4 million in compensation expense related to the LTIP units for the six months ended June 30, 2023 and 2022, respectively. As of June 30, 2023 and December 31, 2022, there was \$10.0 million and \$6.5 million, respectively, of total unrecognized compensation cost related to LTIP units. This cost is expected to be recognized over approximately 2.1 years, which represents the weighted average remaining vesting period of the LTIP units.

13. Leases

The Residence Inn Gaslamp hotel property is subject to a ground lease with an expiration date of January 31, 2065 with an extension option by the Company of up to three additional terms of ten years each. Monthly payments are currently approximately \$44 thousand per month and increase 10% every five years. The hotel is subject to annual supplemental rent payments calculated as 5% of gross revenues during the applicable lease year, minus 12 times the monthly base rent scheduled for the lease year.

The Residence Inn New Rochelle hotel property is subject to an air rights lease and garage lease that each expire on December 1, 2104. The lease agreements with the City of New Rochelle cover the space above the parking garage that is occupied by the hotel as well as 128 parking spaces in a parking garage that is attached to the hotel. The annual base rent for the garage lease is the hotel's proportionate share of the city's adopted budget for the operations, management and maintenance of the garage and established reserves to fund for the cost of capital repairs. Aggregate rent for 2023 is approximately \$30 thousand per quarter.

The Hilton Garden Inn Marina del Rey hotel property is subject to a ground lease with an expiration date of December 31, 2067. Minimum monthly payments are currently approximately \$47 thousand per month and a percentage rent payment less the minimum rent is due in arrears equal to 5% to 25% of gross income based on the type of income.

The Company entered into a corporate office lease in September 2015. The lease is for a term of 11 years and includes a 12-month rent abatement period and certain tenant improvement allowances. The Company has a renewal option of up to two successive terms of 5 years each. On June 1, 2023, the Company executed an amendment to the corporate office lease to vacate

and surrender possession of 7,374 rentable square feet in exchange for an early termination payment of \$0.1 million. The partial termination of this lease required the Company to apply ASC 842 and remeasure the right of use asset and lease liability and recognize those adjustments in the consolidated statement of operations. During the six months ended June 30, 2023, the Company recognized a gain from partial lease termination of approximately \$0.2 million as a result of this partial termination. The Company shares the space with a related party and is reimbursed for the pro-rata share of rentable space occupied by the related party.

The Company is the lessee under ground, air rights, garage and office lease agreements for certain of its properties, all of which qualify as operating leases as of June 30, 2023. These leases typically provide multi-year renewal options to extend term as lessee at the Company's option. Option periods are included in the calculation of the lease obligation liability only when options are reasonably certain to be exercised.

In calculating the Company's lease obligations under the various leases, the Company uses discount rates estimated to be equal to what the Company would have to pay to borrow on a collateralized basis over a similar term, for an amount equal to the lease payments, in a similar economic environment. Lease obligations are based on contractually required cash payments while lease expense is recognized on a straight-line basis.

The following table includes information regarding the Company's total minimum lease payments for which it is the lessee, as of June 30, 2023, for each of the next five calendar years and thereafter (in thousands):

Total Future Lease Payments	Amount
2023 (remaining six months)	\$ 933
2024	1,875

Thereafter	63,553
Total lease payments	\$ 71,300
Less: Imputed interest	(50,281)

The Company incurred \$0.6 million of fixed lease payments and \$0.4 million of variable lease payments for the six months ended June 30, 2023, which are included in property taxes, ground rent and insurance in our consolidated statement of operations.

The following table includes information regarding the right of use assets and lease liabilities of the Company as of June 30, 2023 (in thousands):

14. Commitments and Contingencies

Litigation

The Company is subject to various claims, lawsuits and legal proceedings, including routine litigation arising in the ordinary course of business, regarding the operation of its hotels, its managers and other Company matters. While it is not possible to ascertain the ultimate outcome of such matters, the Company believes that the aggregate identifiable amount of such liabilities, if any, will not have a material adverse impact on its financial condition or results of operations.

Management Agreements

The management agreements with IHM have an initial term of five years and automatically renew for two five-year periods unless IHM provides written notice to us no later than 90 days prior to the then current term's expiration date of its intent not to renew. The IHM management agreements provide for early termination at the Company's option upon sale of any IHM-managed hotel for no termination fee, with six months advance notice. The IHM management agreements may be terminated for cause, including the failure of the managed hotel to meet specified performance levels. Base management fees are calculated as a percentage of the hotel's gross room revenue. If certain financial thresholds are met or exceeded, an incentive management fee is calculated as 10% of the hotel's net operating income less fixed costs, base management fees and a specified return threshold. The incentive management fee is capped at 1% of gross hotel revenues for the applicable calculation.

Management fees totaled approximately \$2.8 million and \$2.7 million for the three months ended June 30, 2023 and 2022, respectively, and \$5.1 million and \$4.6 million for the six months ended June 30, 2023 and 2022, respectively.

Franchise Agreements

The fees associated with the franchise agreements are calculated as a specified percentage of the hotel's gross room revenue. Franchise and marketing fees totaled approximately \$6.8 million and \$6.6 million for the three months ended June 30, 2023 and 2022, respectively, and \$12.1 million and \$11.0 million for the six months ended June 30, 2023 and 2022, respectively. The initial term of the agreements range from 10 to 30 years with the weighted average expiration being March 2035.

15. Related Party Transactions

As of June 30, 2023, Jeffrey H. Fisher, the Company's Chairman, President and Chief Executive Officer, owns 100% of IHM. As of June 30, 2023, the Company had hotel management agreements with IHM to manage all 39 of its hotels. Hotel management, revenue management and accounting fees accrued or paid to IHM for the hotels owned by the Company for the three months ended June 30, 2023 and 2022 were \$2.8 million and \$2.7 million, respectively, and for the six months ended June 30, 2023 and 2022 were \$5.1 million and \$4.6 million, respectively. At June 30, 2023 and December 31, 2022, the amounts due to IHM were \$0.7 million and \$0.4 million, respectively.

Cost reimbursements from related parties revenue represent reimbursements of costs incurred on behalf of IHM. These costs relate primarily to office expenses shared with IHM. Various shared office expenses and rent are paid by the Company and allocated to IHM based on the amount of square footage occupied by each entity. As the Company records cost reimbursements based upon costs incurred with no added markup, the revenue and related expense has no impact on the Company's operating income or net income. Cost reimbursements are recorded based upon the occurrence of a reimbursed activity.

16. Subsequent Events

The Company repaid the maturing mortgage loan of \$19.7 million on the Hyatt Place Pittsburgh hotel property on July 6, 2023 with available cash. No prepayment penalties were incurred as a result of the repayment.

Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations.

The following discussion and analysis should be read in conjunction with our consolidated financial statements and related notes included elsewhere in this report and in our Annual Report on Form 10-K for the year ended December 31, 2022. In this report, we use the terms “the Company,” “we” or “our” to refer to Chatham Lodging Trust and its consolidated subsidiaries, unless the context indicates otherwise.

COVID-19 Pandemic

The lodging industry has been significantly impacted by the COVID-19 pandemic, which began in early 2020. The pandemic caused a sharp decline in travel and a significant reduction in hotel demand, which caused us to experience a significant decline in revenues, profitability and cash flows from operations during the years ended December 31, 2020 and December 31, 2021. During the year ended December 31, 2022, we experienced a significant improvement in our business which has continued into 2023, initially driven primarily by leisure travel, and more recently, improvement in other demand segments including corporate and group. There have also been material increases in inflation and interest rates. We anticipate that continued improvement in operating trends will be dependent on continued strength in leisure travel and a recovery of business travel.

Statement Regarding Forward-Looking Information

The following information contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended (the “Securities Act”), and Section 21E of the Securities Exchange Act of 1934, as amended (the “Exchange Act”). These forward-looking statements include information about possible or assumed future results of the lodging industry and our business, financial condition, liquidity, results of operations, cash flow and plans and objectives. These statements generally are characterized by the use of the words “believe,” “expect,” “anticipate,” “estimate,” “plan,” “continue,” “intend,” “should,” “may” or similar expressions. Although we believe that the expectations reflected in such forward-looking statements are based upon reasonable assumptions, such forward-looking statements relate to future events, our plans, strategies, prospects and future financial performance, and involve known and unknown risks that are difficult to predict, uncertainties and other factors that are, in some cases, beyond our control and which could differ materially from those set forth in the forward-looking statements. Important factors that we think could cause our actual results to differ materially from expected results are summarized below. Some factors that might cause such a difference include the following: the continuing and future impact of the COVID-19 pandemic (including its effect on the ability or desire of people to travel), local, national and global economic conditions, uncertainty surrounding the financial stability of the United States, Europe and China, increased direct competition, changes in government regulations or accounting rules, changes in local, national and global real estate conditions, declines in lodging industry fundamentals, increased operating costs, a potential recessionary environment, seasonality of the lodging industry, our ability to obtain debt and equity financing on satisfactory terms, changes in interest rates, our ability to identify suitable investments, our ability to close on identified investments, inaccuracies of our accounting estimates, the uncertainty and economic impact of pandemics, epidemics or other public health emergencies or fear of such events, the impact of and changes to various government programs, and our ability to dispose of selected hotel properties on the terms and timing we expect, if at all. Given these uncertainties, undue reliance should not be placed on such statements. We undertake no obligation to publicly release the results of any revisions to these forward-looking statements that may be made to reflect future events or circumstances or to reflect the occurrence of unanticipated events. The forward-looking statements should also be read in light of the risk factors identified in the “Risk Factors” section in the Company’s Annual Report on Form 10-K for the year ended December 31, 2022 as updated by the Company’s subsequent filings with the SEC under the Exchange Act.

Overview

We are a self-advised hotel investment company organized in October 2009 that commenced operations in April 2010. Our investment strategy is to invest in upscale extended-stay and premium-branded select-service hotels in geographically diverse markets with high barriers to entry near strong demand generators. We may acquire portfolios of hotels or single hotels. We expect that a significant portion of our portfolio will consist of hotels in the upscale extended-stay or select-service categories, including brands such as Homewood Suites by Hilton®, Residence Inn by Marriott®, Hyatt Place®, Courtyard by Marriott®, SpringHill Suites by Marriott®, Hilton Garden Inn by Hilton®, Embassy Suites®, Hampton Inn®, Hampton Inn and Suites®, Home2 Suites by Hilton® and TownePlace Suites by Marriott®.

The Company's future hotel acquisitions may be funded by issuances of both common and preferred shares or the issuance of partnership interests in our operating partnership, Chatham Lodging, L.P. (the "Operating Partnership"), draw-downs under our revolving credit facility, the incurrence or assumption of debt, available cash, or proceeds from dispositions of assets. We intend to acquire quality assets at attractive prices and improve their returns through knowledgeable asset management and seasoned, proven hotel management while remaining prudently leveraged.

At June 30, 2023, our leverage ratio was 25.8% measured as the ratio of our net debt (total debt outstanding before deferred financing costs less unrestricted cash and cash equivalents) to hotel investments at cost. Over the past several years, we have maintained a leverage ratio between the high 20s and the low 50s. As of June 30, 2023, we have total debt of \$466.7 million at a weighted average interest rate of approximately 5.0%.

We are a real estate investment trust ("REIT") for federal income tax purposes. In order to qualify as a REIT under the Internal Revenue Code of 1986, as amended (the "Code"), we cannot operate our hotels. Therefore, the Operating Partnership and its subsidiaries lease our hotel properties to taxable REIT subsidiary lessees ("TRS Lessees"), who in turn engage eligible independent contractors to manage the hotels. Each of the TRS Lessees is treated as a taxable REIT subsidiary for federal income tax purposes and is consolidated within our financial statements for accounting purposes. However, since we control both the Operating Partnership and the TRS Lessees, our principal source of funds on a consolidated basis is from the operations of our hotels. The earnings of the TRS Lessees are subject to taxation as regular C corporations, as defined in the Code, potentially reducing the TRS Lessees' cash available to pay dividends to us, and therefore our funds from operations and the cash available for distribution to our shareholders.

Key Indicators of Operating Performance and Financial Condition

We measure financial condition and hotel operating performance by evaluating non-financial and financial metrics and measures such as:

- Average Daily Rate ("ADR"), which is the quotient of room revenue divided by total rooms sold,
- Occupancy, which is the quotient of total rooms sold divided by total rooms available,
- Revenue Per Available Room ("RevPAR"), which is the product of occupancy and ADR, and does not include food and beverage revenue, or other operating revenue,
- Funds From Operations ("FFO"),
- Adjusted FFO,
- Earnings before interest, taxes, depreciation and amortization ("EBITDA"),
- EBITDAre,
- Adjusted EBITDA, and
- Adjusted Hotel EBITDA.

We evaluate the hotels in our portfolio and potential acquisitions using these metrics to determine each hotel's contribution toward providing income to our shareholders through increases in distributable cash flow and increasing long-term total returns through appreciation in the value of our common shares. RevPAR, ADR and Occupancy are hotel industry measures commonly used to evaluate operating performance.

See "Non-GAAP Financial Measures" for further discussion of FFO, Adjusted FFO, EBITDA, EBITDAre, Adjusted EBITDA and Adjusted Hotel EBITDA.

Results of Operations

Industry Outlook

Smith Travel Research reported that U.S. lodging industry RevPAR increased 2.5% for the three months ended June 30, 2023, with RevPAR up 1.9% in April 2023, up 3.7% in May 2023 and up 1.9% in June 2023. We expect that over the remainder of 2023, lodging industry RevPAR will continue to increase modestly.

Comparison of the three months ended June 30, 2023 to the three months ended June 30, 2022

Results of operations for the three months ended June 30, 2023 include the operating activities of our 39 wholly owned hotels that were owned for the entire period. We sold one hotel located in Burlington, MA on May 6, 2022, and sold three hotels located in Dallas, TX and Houston, TX on May 13, 2022. We developed and opened on January 24, 2022 one hotel located in Los Angeles, CA. The changes in results described below were driven primarily by the recovery from the COVID-19 pandemic, the sales of four hotels, and the ramp-up from opening of one hotel.

Revenues

Revenue, which consists primarily of room, food and beverage and other operating revenues from our wholly owned hotels, was as follows for the periods indicated (dollars in thousands):

	For the three months ended		% Change
	June 30, 2023	June 30, 2022	
Room	\$ 77,486	\$ 75,761	2.3 %
Food and beverage	2,094	1,968	6.4 %
Other	4,531	3,674	23.3 %
Cost reimbursements from related parties	365	358	2.0 %
Total revenue	\$ 84,476	\$ 81,761	3.3 %

Total revenue was \$84.5 million for the three months ended June 30, 2023, up \$2.7 million compared to total revenue of \$81.8 million for the corresponding 2022 period. The increase in total revenue primarily was related to the recovery from the COVID-19 pandemic and the ramp-up of the Home2 Woodland Hills, which opened on January 24, 2022. The Home2 Woodland Hills contributed \$2.9 million of revenue during the three months ended June 30, 2023, up \$0.4 million from the \$2.5 million contributed during the three months ended June 30, 2022. The increase was partially offset by the impact from selling four hotels during the second quarter of 2022 that contributed \$0 of revenue during the three months ended June 30, 2023, down \$1.7 million from the \$1.7 million these hotels contributed during the three months ended June 30, 2022. Since all of our hotels are select-service or limited-service hotels, room revenue is the primary revenue source as these hotels do not have significant food and beverage revenue or large group conference facilities. Room revenue comprised 91.7% and 92.7% of total revenue for the three months ended June 30, 2023 and 2022, respectively. Room revenue was \$77.5 million and \$75.8 million for the three months ended June 30, 2023 and 2022, respectively, and the increase in room revenue primarily was related to the recovery from the COVID-19 pandemic and the ramp-up of the Home2 Woodland Hills, which opened on January 24, 2022.

Food and beverage revenue was \$2.1 million for the three months ended June 30, 2023, up \$0.1 million compared to \$2.0 million for the corresponding 2022 period. The increase in food and beverage revenue primarily was related to an increase in occupancies at our hotels due to the recovery from the COVID-19 pandemic.

Other operating revenue, comprised of parking, meeting room, gift shop, in-room movie and other ancillary amenities revenue. Other operating revenue was \$4.5 million and \$3.7 million for the three months ended June 30, 2023 and 2022, respectively. The increase in other operating revenue primarily was related to an increase in occupancies at our hotels due to the recovery from the COVID-19 pandemic.

Reimbursable costs from related parties were \$0.4 million and \$0.4 million for the three months ended June 30, 2023 and 2022, respectively. The cost reimbursements were offset by the reimbursed costs from related parties included in operating expenses.

In the table below, we present both actual and same property room revenue metrics. Actual Occupancy, ADR and RevPAR metrics reflect the performance of the hotels for the actual days such hotels were owned by the Company during the periods presented. Same property Occupancy, ADR, and RevPAR reflect results for the 39 hotels wholly owned by the Company as of June 30, 2023 that have been in operation for a full year regardless of our ownership during the period presented, which is a non-GAAP financial measure. Results for the hotels for periods prior to our ownership were provided to us by prior owners and have not been adjusted by us.

	For the three months ended June 30,					
	2023		2022		Percentage Change	
	Same Property (39 hotels)	Actual (39 hotels)	Same Property (39 hotels)	Actual (43 hotels)	Same Property (39 hotels)	Actual (39 / 43 hotels)
Occupancy	78.9 %	78.9 %	77.3 %	76.8 %	2.1 %	2.7 %
ADR	\$ 182.40	\$ 182.40	\$ 178.14	\$ 176.33	2.4 %	3.4 %
RevPAR	\$ 143.96	\$ 143.96	\$ 137.68	\$ 135.35	4.6 %	6.4 %

For the three months ended June 30, 2023 same property RevPAR increased 4.6% due to an increase in ADR of 2.4% and an increase in occupancy of 2.1% primarily related to the recovery from the COVID-19 pandemic. Same property RevPAR increased 11.8% in April 2023, increased 4.9% in May 2023, and decreased 1.4% in June 2023. Same property RevPAR was \$137.58 in April 2023, \$139.91 in May 2023, and \$154.52 in June 2023.

Total hotel operating expenses	\$ 43,323	\$ 41,345	4.8 %

Hotel operating expenses increased \$2.0 million, or 4.8%, to \$43.3 million for the three months ended June 30, 2023 from \$41.3 million for the three months ended June 30, 2022. The primary causes of the increase in hotel operating expenses were an increase in revenues and occupancy caused by the recovery from the COVID-19 pandemic and inflation. The increase was partially offset by four hotels that were sold during the second quarter of 2022 that contributed \$0 of operating expenses during the three months ended June 30, 2023, down \$1.3 million from the \$1.3 million these hotels contributed during the three months ended June 30, 2022.

Room expenses, which are the most significant component of hotel operating expenses, increased \$0.1 million from \$14.5 million for the three months ended June 30, 2022 to \$14.6 million for the three months ended June 30, 2023.

The remaining hotel operating expenses increased \$1.8 million, from \$26.9 million for the three months ended June 30, 2022 to \$28.7 million for the three months ended June 30, 2023. The increase in other remaining expenses primarily was related to an increase in occupancies and revenues at our hotels due to the recovery from the COVID-19 pandemic and inflation.

Depreciation and Amortization

Depreciation and amortization expense decreased \$0.6 million from \$15.3 million for the three months ended June 30, 2022 to \$14.7 million for the three months ended June 30, 2023. The decrease was primarily due to the depreciation expense from four hotels that were sold during the second quarter of 2022. Depreciation is generally recorded on our assets over 40 years for buildings, 20 years for land improvements, 15 years for building improvements and one to ten years for furniture, fixtures and equipment from the date of acquisition on a straight-line basis. Depreciable lives of hotel furniture, fixtures and equipment are generally assumed to be the difference between the date of acquisition and the date that the furniture, fixtures and equipment will be replaced. Amortization of franchise fees is recorded on a straight-line basis over the term of the respective franchise agreement.

Property Taxes, Ground Rent and Insurance

Total property taxes, ground rent and insurance expenses increased \$0.2 million from \$5.9 million for the three months ended June 30, 2022 to \$6.1 million for the three months ended June 30, 2023. The increase was primarily related to increases in property tax assessments.

General and Administrative

General and administrative expenses principally consist of employee-related costs, including base payroll, bonuses and amortization of restricted stock and awards of long-term incentive plan units. These expenses also include corporate operating costs, professional fees and trustees' fees. Total general and administrative expenses (excluding amortization of stock based compensation of \$1.6 million and \$1.4 million for the three months ended June 30, 2023 and 2022, respectively) was \$3.1 million for the three months ended June 30, 2023 versus \$3.0 million for the three months ended June 30, 2022.

Other Charges

Other charges decreased from \$0.2 million for the three months ended June 30, 2022 to \$38 thousand for the three months ended June 30, 2023.

Reimbursable Costs from Related Parties

Reimbursable costs from related parties, comprised of corporate payroll and rent costs were \$0.4 million and \$0.4 million for the three months ended June 30, 2023 and 2022, respectively. The cost reimbursements were offset by the cost reimbursements from related parties included in revenues.

Gain on Sale of Hotel Properties

Gain on sale of hotel properties decreased \$1.9 million for the three months ended June 30, 2023 compared to the three months ended June 30, 2022 due to the sale of the HGI Burlington hotel property on May 6, 2022, and the sale of the HWS Dallas hotel property, the CY Houston West U hotel property, and the RI Houston West U hotel property on May 13, 2022.

Interest Expense, Including Amortization of Deferred Fees

Interest expense decreased \$0.5 million from \$6.9 million for the three months ended June 30, 2022 to \$6.4 million for the three months ended June 30, 2023 and is comprised of the following (dollars in thousands):

	For the three months ended		% Change

Amortization of deferred financing costs	292	368	(20.7) %
Total	\$ 6,442	\$ 6,936	(7.1) %

Gain from Partial Lease Termination

Gain from partial lease termination increased \$0.2 million from \$0 for the three months ended June 30, 2022. The gain in 2023 is related to the Company's termination of a portion of its corporate office lease to vacate and surrender possession of 7,374 rentable square feet in exchange for an early termination payment of \$0.1 million.

Income Tax Expense

Income tax expense for the three months ended June 30, 2023 and 2022 was \$0 and \$0, respectively. We are subject to income taxes based on the taxable income of our TRS Lessees at a combined federal and state tax rate of approximately 25%. The Company's TRS is expecting taxable losses in 2023 and recognizes a full valuation allowance equal to 100% of the gross deferred tax assets due to the uncertainty of the TRS's ability to utilize these deferred tax assets.

Net Income

Net income was \$9.4 million for the three months ended June 30, 2023, compared to net income of \$9.3 million for the three months ended June 30, 2022. The change in net income was primarily due to an improvement in performance at our hotels due to the continued recovery from the COVID-19 pandemic, combined with the other factors discussed above.

Comparison of the six months ended June 30, 2023 to the six months ended June 30, 2022

Results of operations for the six months ended June 30, 2023 include the operating activities of our 39 wholly owned hotels that were owned for the entire period. We sold one hotel located in Burlington, MA on May 6, 2022, and three hotels located in Dallas, TX and Houston, TX on May 13, 2022. We acquired one hotel located in Miramar Beach, FL on March 8, 2022. We developed and opened on January 24, 2022 one hotel located in Los Angeles, CA. The changes in results described below were driven primarily by the recovery from the COVID-19 pandemic, the sale of four hotels, the acquisition of one hotel, and the ramp-up from opening of one hotel.

Revenues

Revenue, which consists primarily of room, food and beverage and other operating revenues from our wholly owned hotels, was as follows for the periods indicated (dollars in thousands):

	For the six months ended		% Change
	June 30, 2023	June 30, 2022	
Room	\$ 139,157	\$ 125,926	10.5 %
Food and beverage	4,182	3,382	23.7 %
Other	8,022	6,654	20.6 %
Cost reimbursements from related parties	730	684	6.7 %
Total revenue	\$ 152,091	\$ 136,646	11.3 %

Total revenue was \$152.1 million for the six months ended June 30, 2023, up \$15.5 million compared to total revenue of \$136.6 million for the corresponding 2022 period. The increase in total revenue primarily was related to the recovery from the COVID-19 pandemic, the ramp-up of the Home2 Woodland Hills, which opened on January 24, 2022, the acquisition of one hotel on March 8, 2022, partially offset by the decrease in revenue from the sale of four hotels during the six months ended June 30, 2022. The Home2 Woodland Hills contributed \$5.6 million of revenue during the six months ended June 30, 2023, up \$2.3 million from the \$3.3 million contributed during the six months ended June 30, 2022. The one hotel acquired in 2022 contributed \$2.9 million of revenue during the six months ended June 30, 2023, up \$0.8 million from the \$2.1 million contributed during the six months ended June 30, 2022. The increase was partially offset by the impact from selling four hotels during the second quarter of 2022 that contributed \$0 of revenue during the six months ended June 30, 2023, down \$4.9 million from the \$4.9 million these hotels contributed during the six months ended June 30, 2022. Since all of our hotels are select-service or limited-service hotels, room revenue is the primary revenue source as these hotels do not have significant food and beverage revenue or large group conference facilities. Room revenue comprised 91.5% and 92.2% of total revenue for the six months ended June 30, 2023 and 2022, respectively. Room revenue was \$139.2 million and \$125.9 million for the six months ended June 30, 2023 and 2022, respectively, and the increase in room revenue primarily was related to the recovery from the COVID-19 pandemic, the ramp-up of the Home2 Woodland Hills, which opened on January 24, 2022, the acquisition of one hotel on March 8, 2022, partially offset by the decrease in room revenue from the sale of four hotels during the six months ended June 30, 2022.

Food and beverage revenue was \$4.2 million for the six months ended June 30, 2023, up \$0.8 million compared to food and beverage revenue of \$3.4 million for the corresponding 2022 period. The increase in food and beverage revenue primarily was related to an increase in occupancies at our hotels due to the recovery from the COVID-19 pandemic.

Other operating revenue, comprised of parking, meeting room, gift shop, in-room movie and other ancillary amenities revenue was up \$1.3 million for the six months ended June 30, 2023. Other operating revenue was \$8.0 million and \$6.7 million for the six months ended June 30, 2023 and September 30, 2022, respectively. The increase in other operating revenue primarily was related to an increase in occupancies at our hotels due to the recovery from the COVID-19 pandemic.

Reimbursable costs from related parties were \$0.7 million and \$0.7 million for the six months ended June 30, 2023 and 2022, respectively. The cost reimbursements were offset by the reimbursed costs from related parties included in operating expenses.

As reported by Smith Travel Research, U.S. lodging industry RevPAR for the six months ended June 30, 2023 and 2022 increased 8.7% and increased 49.4%, respectively, in the 2023 and 2022 periods as compared to the respective prior year periods. We expect that over the remainder of 2023, lodging industry RevPAR will continue to increase modestly.

In the table below, we present both actual and same property room revenue metrics. Actual Occupancy, ADR and RevPAR metrics reflect the performance of the hotels for the actual days such hotels were owned by the Company during the periods presented. Same property Occupancy, ADR, and RevPAR reflect results for the 39 hotels wholly owned by the Company as of June 30, 2023 that have been in operation for a full year regardless of our ownership during the period presented, which is a non-GAAP financial measure. Results for the hotels for periods prior to our ownership were provided to us by prior owners and have not been adjusted by us.

	For the six months ended June 30,					
	2023		2022		Percentage Change	
	Same Property (39 hotels)	Actual (39 hotels)	Same Property (39 hotels)	Actual (43 hotels)	Same Property (39 hotels)	Actual (39 / 43 hotels)
Occupancy	73.8 %	73.8 %	69.1 %	68.2 %	6.8 %	8.2 %
ADR	\$ 176.21	\$ 176.25	\$ 165.34	\$ 162.94	6.6 %	8.2 %
RevPAR	\$ 130.00	\$ 129.99	\$ 114.17	\$ 111.19	13.9 %	16.9 %

For the six months ended June 30, 2023 same property RevPAR increased 13.9% due to an increase in ADR of 6.6% and an increase in occupancy of 6.8% primarily related to the recovery from the COVID-19 pandemic.

Telephone	722	760	(5.0) %
Other hotel operating	1,863	1,611	15.6 %
General and administrative	14,112	12,153	16.1 %
Franchise and marketing fees	12,141	10,966	10.7 %
Advertising and promotions	2,975	2,419	23.0 %

Insurance	1,400	1,457	(3.9) %
Total hotel operating expenses	\$ 83,800	\$ 75,026	11.7 %

Hotel operating expenses increased \$8.8 million to \$83.8 million for the six months ended June 30, 2023 from \$75.0 million for the six months ended June 30, 2022. The primary cause of the increase in hotel operating expenses was related to the increase in revenues and occupancy caused by the recovery from the COVID-19 pandemic and inflation. The increase was partially offset by the sale of four hotels during the second quarter of 2022 that contributed \$0 of operating expenses during the six months ended June 30, 2023, down \$3.5 million from the \$3.5 million these hotels contributed during the six months ended June 30, 2022.

Room expenses, which are the most significant component of hotel operating expenses, increased \$2.6 million from \$26.1 million for the six months ended June 30, 2022 to \$28.7 million for the six months ended June 30, 2023. The increase in room expenses primarily was related to an increase in occupancies and revenues at our hotels due to the recovery from the COVID-19 pandemic and inflation.

The remaining hotel operating expenses increased \$6.1 million, from \$49.0 million for the six months ended June 30, 2022 to \$55.1 million for the six months ended June 30, 2023. The increase in other remaining expenses primarily was related to an increase in occupancies and revenues at our hotels due to the recovery from the COVID-19 pandemic and inflation.

Depreciation and Amortization

Depreciation and amortization expense decreased \$1.4 million from \$30.3 million for the six months ended June 30, 2022 to \$28.9 million for the six months ended June 30, 2023. The decrease was primarily due to the depreciation expense from four hotels that were sold during the second quarter of 2022. Depreciation is generally recorded on our assets over 40 years for buildings, 20 years for land improvements, 15 years for building improvements and one to ten years for furniture, fixtures and equipment from the date of acquisition on a straight-line basis. Depreciable lives of hotel furniture, fixtures and equipment are generally assumed to be the difference between the date of acquisition and the date that the furniture, fixtures and equipment will be replaced. Amortization of franchise fees is recorded on a straight-line basis over the term of the respective franchise agreement.

Property Taxes, Ground Rent and Insurance

Total property taxes, ground rent and insurance expenses increased \$1.3 million from \$10.9 million for the six months ended June 30, 2022 to \$12.2 million for the six months ended June 30, 2023. The increase was primarily related to increases in property tax assessments as a result of the recovery from the COVID-19 pandemic.

General and Administrative

General and administrative expenses principally consist of employee-related costs, including base payroll, bonuses and amortization of restricted stock and awards of LTIP units. These expenses also include corporate operating costs, professional fees and trustees' fees. Total general and administrative expenses (excluding amortization of stock based compensation of \$3.0 million and \$2.7 million for the six months ended June 30, 2023 and 2022, respectively) increased \$0.2 million to \$5.9 million for the six months ended June 30, 2023 from \$5.7 million for the six months ended June 30, 2022.

Other Charges

Other charges decreased from \$0.4 million for the six months ended June 30, 2022 to \$38 thousand and for the six months ended June 30, 2023.

Reimbursable Costs from Related Parties

Reimbursable costs from related parties, comprised of corporate payroll and rent costs were \$0.7 million and \$0.7 million for the six months ended June 30, 2023 and 2022, respectively. The cost reimbursements were offset by the cost reimbursements from related parties included in revenues.

Gain on Sale of Hotel Properties

Gain on sale of hotel properties decreased \$1.9 million for the six months ended June 30, 2023 compared to the six months ended June 30, 2022 due to the sale of the HGI Burlington hotel property on May 6, 2022, and the sale of the HWS Dallas hotel property, CY Houston West U hotel property, and RI Houston West U hotel property on May 13, 2022.

Interest Expense, Including Amortization of Deferred Fees

Interest expense decreased \$0.4 million from \$13.3 million for the six months ended June 30, 2022 to \$12.9 million for the six months ended June 30, 2023 and is comprised of the following (dollars in thousands):

	For the six months ended		% Change
	June 30, 2023	June 30, 2022	
Mortgage debt interest	\$ 9,258	\$ 10,184	(9.1)%
Credit facility and term loan interest and unused fees	2,617	1,703	53.7%
Interest rate cap	(16)	(289)	(94.5)%
Construction loan interest	415	1,355	(69.4)%
Capitalized interest	—	(330)	(100.0)%
Amortization of deferred financing costs	606	702	(13.7)%
Total	\$ 12,880	\$ 13,325	(3.3)%

Loss on Early Extinguishment of Debt

Loss on early extinguishment of debt increased \$0.7 million from \$0 for the six months ended June 30, 2022. The loss in 2023 is related to the Company's repayment of the construction loan on the Home2 Woodland Hills hotel property.

Gain from Partial Lease Termination

Gain from partial lease termination increased \$0.2 million from \$0 for the six months ended June 30, 2022. The gain in 2023 is related to the Company's termination of a portion of its corporate office lease to vacate and surrender possession of 7,374 rentable square feet in exchange for an early termination payment of \$0.1 million.

Income Tax Expense

Income tax expense for the six months ended June 30, 2023 and 2022 was \$0 and \$0, respectively. We are subject to income taxes based on the taxable income of our TRS Lessees at a combined federal and state tax rate of approximately 25%. The Company's TRS is expecting taxable losses in 2023 and recognizes a full valuation allowance equal to 100% of the gross deferred tax assets due to the uncertainty of the TRS's ability to utilize these deferred tax assets.

Net Income (Loss)

Net income was \$4.3 million for the six months ended June 30, 2023, an increase of \$4.7 million from the net loss of \$0.4 million for the six months ended June 30, 2022. The change in net income (loss) was primarily due to an improvement in performance at our hotels due to the continued recovery from the COVID-19 pandemic, combined with the other factors discussed above.

Non-GAAP Financial Measures

We consider the following non-GAAP financial measures useful to investors as key supplemental measures of our operating performance: (1) FFO, (2) Adjusted FFO, (3) EBITDA, (4) EBITDAre, (5) Adjusted EBITDA and (6) Adjusted Hotel EBITDA. These non-GAAP financial measures should be considered along with, but not as alternatives to, net income or loss as prescribed by GAAP as a measure of our operating performance.

FFO, Adjusted FFO, EBITDA, EBITDAre, Adjusted EBITDA and Adjusted Hotel EBITDA do not represent cash generated from operating activities under GAAP and should not be considered as alternatives to net income or loss, cash flows from operations or any other operating performance measure prescribed by GAAP. FFO, Adjusted FFO, EBITDA, EBITDAre, Adjusted EBITDA and Adjusted Hotel EBITDA are not measures of our liquidity, nor are FFO, Adjusted FFO, EBITDA, EBITDAre, Adjusted EBITDA and Adjusted Hotel EBITDA indicative of funds available to fund our cash needs, including our ability to make cash distributions. These measurements do not reflect cash expenditures for long-term assets and other items that have been and will be incurred. FFO, Adjusted FFO, EBITDA, EBITDAre, Adjusted EBITDA and Adjusted Hotel EBITDA may include funds that may not be available for management's discretionary use due to functional requirements to conserve funds for capital expenditures, property acquisitions, and other commitments and uncertainties.

We calculate FFO in accordance with standards established by Nareit, which defines FFO as net income or loss (calculated in accordance with GAAP), excluding gains or losses from sales of real estate, impairment write-downs, the cumulative effect of changes in accounting principles, plus depreciation and amortization (excluding amortization of deferred financing costs), and after adjustments for unconsolidated partnerships and joint ventures following the same approach. We believe that the presentation of FFO provides useful information to investors regarding our operating performance because it measures our performance without regard to specified non-cash items such as real estate depreciation and amortization, gain or loss on sale of real estate assets and certain other items that we believe are not indicative of the property level performance of our hotel properties. We believe that these items reflect historical cost of our asset base and our acquisition and disposition activities and are less reflective of our ongoing operations, and that by adjusting to exclude the effects of these items, FFO is useful to investors in comparing our operating performance between periods and between REITs that also report FFO using the Nareit definition.

We calculate Adjusted FFO by further adjusting FFO for certain additional items that are not addressed in Nareit's definition of FFO, including other charges, losses on the early extinguishment of debt and similar items related to our unconsolidated real estate entities that we believe do not represent costs related to hotel operations. We believe that Adjusted FFO provides investors with another financial measure that may facilitate comparisons of operating performance between periods and between REITs that make similar adjustments to FFO.

The following is a reconciliation of net income to FFO and Adjusted FFO for the three and six months ended June 30, 2023 and 2022 (in thousands, except share data):

	For the three months ended		For the six months ended	
	June 30,		June 30,	
	2023	2022	2023	2022
Funds From Operations ("FFO"):				
Net income (loss)	\$ 9,365	\$ 9,322	\$ 4,324	\$ (376)
Preferred dividends	(1,987)	(1,987)	(3,975)	(3,975)
Net income (loss) attributable to common shares and common units	7,378	7,335	349	(4,351)
Gain on sale of hotel properties	(55)	(2,020)	(55)	(2,020)
Depreciation	14,616	15,223	28,821	30,193
FFO attributable to common share and unit holders	21,939	20,538	29,115	23,822
Other charges	38	150	38	400
Loss on early extinguishment of debt	—	—	691	—
Gain from partial lease termination	(164)	—	(164)	—
Adjusted FFO attributable to common share and unit holders	\$ 21,813	\$ 20,688	\$ 29,680	\$ 24,222
Weighted average number of common shares and units				
Basic	50,434,230	50,010,107	50,308,726	49,928,420
Diluted	50,550,159	50,231,943	50,430,784	50,139,358

Diluted weighted average common share and unit count used for calculation of adjusted FFO per share may differ from diluted weighted average common share count used for calculation of GAAP Net Income per share due to the inclusion of LTIP units, which may be converted to common shares of beneficial interest if Net Income per share is negative and Adjusted FFO is positive. Unvested restricted shares and unvested LTIP units that could potentially dilute basic earnings per share in the future would not be included in the computation of diluted loss per share for the periods where a loss has been recorded because they would have been anti-dilutive for the periods presented.

Earnings before interest, taxes, depreciation and amortization ("EBITDA") is defined as net income or loss excluding: (1) interest expense; (2) provision for income taxes, including income taxes applicable to sales of assets; (3) depreciation and amortization; and (4) unconsolidated real estate entity items including interest, depreciation and amortization excluding gains and losses from sales of real estate. We consider EBITDA useful to an investor in evaluating and facilitating comparisons of our operating performance between periods and between REITs by removing the impact of our capital structure (primarily interest expense) and asset base (primarily depreciation and amortization) from our operating results. In addition, EBITDA is used as one measure in determining the value of hotel acquisitions and dispositions.

In addition to EBITDA, we present EBITDAre in accordance with Nareit guidelines, which defines EBITDAre as net income or loss excluding interest expense, income tax expense, depreciation and amortization expense, gains or losses from sales of real estate, impairment, and adjustments for unconsolidated joint ventures. We believe that the presentation of EBITDAre provides useful information to investors regarding the Company's operating performance and can facilitate comparisons of operating performance between periods and between REITs.

We also present Adjusted EBITDA, which includes additional adjustments for items such as other charges, gains or losses on extinguishment of indebtedness, the amortization of share-based compensation, and certain other expenses that we consider outside the normal course of operations. We believe that Adjusted EBITDA provides useful supplemental information to investors regarding our ongoing operating performance that, when considered with net income, EBITDA and EBITDAre, is beneficial to an investor's understanding of our performance.

The following is a reconciliation of net income to EBITDA, EBITDAre and Adjusted EBITDA for the three and six months ended June 30, 2023 and 2022 (in thousands):

Adjusted Hotel EBITDA is defined as net income before interest, income taxes, depreciation and amortization, corporate general and administrative, impairment loss, loss on early extinguishment of debt, other charges, interest and other income, losses on sales of hotel properties and income or loss from unconsolidated real estate entities. We present Adjusted Hotel EBITDA because we believe it is useful to investors in comparing our hotel operating performance between periods and comparing our Adjusted Hotel EBITDA margins to those of our peer companies. Adjusted Hotel EBITDA represents the results of operations for our wholly owned hotels only.

Although we present FFO, Adjusted FFO, EBITDA, EBITDAre, Adjusted EBITDA and Adjusted Hotel EBITDA because we believe they are useful to investors in comparing our operating performance between periods and between REITs that report similar measures, these measures have limitations as analytical tools. Some of these limitations are:

- FFO, Adjusted FFO, EBITDA, EBITDAre, Adjusted EBITDA and Adjusted Hotel EBITDA do not reflect our cash expenditures, or future requirements, for capital expenditures or contractual commitments;
- FFO, Adjusted FFO, EBITDA, EBITDAre, Adjusted EBITDA and Adjusted Hotel EBITDA do not reflect changes in, or cash requirements for, our working capital needs;
- FFO, Adjusted FFO, EBITDA, EBITDAre, Adjusted EBITDA and Adjusted Hotel EBITDA do not reflect funds available to make cash distributions;
- EBITDA, EBITDAre, Adjusted EBITDA and Adjusted Hotel EBITDA do not reflect the significant interest expense, or the cash requirements necessary to service interest or principal payments, on our debts;
- Although depreciation and amortization are non-cash charges, the assets being depreciated and amortized may need to be replaced in the future, and FFO, Adjusted FFO, EBITDA, EBITDAre, Adjusted EBITDA and Adjusted Hotel EBITDA do not reflect any cash requirements for such replacements;
- Non-cash compensation is and will remain a key element of our overall long-term incentive compensation package, although we exclude it as an expense when evaluating our ongoing operating performance for a particular period using Adjusted EBITDA;
- Adjusted FFO, Adjusted EBITDA and Adjusted Hotel EBITDA do not reflect the impact of certain cash charges (including acquisition transaction costs) that result from matters we consider not to be indicative of the underlying performance of our hotel properties; and
- Other companies in our industry may calculate FFO, Adjusted FFO, EBITDA, EBITDAre, Adjusted EBITDA and Adjusted Hotel EBITDA differently than we do, limiting their usefulness as a comparative measure.

In addition, FFO, Adjusted FFO, EBITDA, EBITDAre, Adjusted EBITDA and Adjusted Hotel EBITDA do not represent cash generated from operating activities as determined by GAAP and should not be considered as alternatives to net income or loss, cash flows from operations or any other operating performance measure prescribed by GAAP. FFO, Adjusted FFO, EBITDA, EBITDAre, Adjusted EBITDA and Adjusted Hotel EBITDA are not measures of our liquidity. Because of these limitations, FFO, Adjusted FFO, EBITDA, EBITDAre, Adjusted EBITDA and Adjusted Hotel EBITDA should not be considered in isolation or as a substitute for performance measures calculated in accordance with GAAP. We compensate for these limitations by relying primarily on our GAAP results and using FFO, Adjusted FFO, EBITDA, EBITDAre, Adjusted EBITDA and Adjusted Hotel EBITDA only supplementally. Our consolidated financial statements and the notes to those statements included elsewhere are prepared in accordance with GAAP.

Sources and Uses of Cash

Our principal sources of cash include net cash from operations, availability under our credit facility, proceeds from debt and equity issuances, and proceeds from the sale of hotel properties. Investing Activities Cash Flows

Net cash flows used in investing activities increased \$51.5 million to \$(15.6) million during the six months ended June 30, 2023 compared to \$35.9 million during the six months ended June 30, 2022. - Lease payments due within the next 12 months from June 30, 2023 total \$1.9 million. See Note 13, "Leases" to our consolidated financial statements for additional information relating to our corporate office and ground leases.

Liquidity and Capital Resources

At June 30, 2023, our leverage ratio was approximately 25.8% measured as the ratio of our net debt (total debt outstanding before deferred financing costs less unrestricted cash and cash equivalents) to hotel investments at cost. Over the past several years, we have maintained a leverage ratio between the high 20s and the low 50s. At June 30, 2023, we have total debt of \$466.7 million at an average interest rate of approximately 5.0%.

At June 30, 2023 and December 31, 2022, we had \$0 and \$0, respectively, in outstanding borrowings under our \$260.0 million revolving credit facility. We had \$90.0 million and \$0, respectively, in outstanding borrowings under our unsecured term loan at June 30, 2023 and December 31, 2022.

Our revolving credit facility and term loan contain representations, warranties, covenants, terms and conditions customary for credit facilities of this type, including a maximum leverage ratio, a minimum fixed charge coverage ratio and minimum net worth financial covenants, limitations on (i) liens, (ii) incurrence of debt, (iii) investments, (iv) distributions, and (v) mergers and asset dispositions, covenants to preserve corporate existence and comply with laws, covenants on the use of proceeds and default provisions, including defaults for non-payment, breach of representations and warranties, insolvency, non-performance of covenants, cross-defaults and guarantor defaults. We were in compliance with all financial covenants at June 30, 2023.

Our mortgage debt agreements contain "cash trap" provisions that are triggered when the hotel's operating results fall below a certain debt service coverage ratio or debt yield. When these provisions are triggered, all of the excess cash flow generated by the hotel is deposited directly into cash management accounts for the benefit of our lenders until a specified debt service coverage ratio or debt yield is reached. Such provisions do not allow the lender the right to accelerate repayment of the underlying debt. As of June 30, 2023, four of our mortgage debt lenders have enforced cash trap provisions resulting in \$5.6 million of restricted cash. We do not expect that such cash traps will affect our ability to satisfy our short-term liquidity requirements.

In December 2017, we established a \$50 million dividend reinvestment and stock purchase plan. We filed a new \$50 million shelf registration statement for the dividend reinvestment and stock purchase plan (the "DRSPP") on December 22, 2020 to replace the prior plan. Under the DRSPP, shareholders may purchase additional common shares by reinvesting some or all of the cash dividends received on common shares. Shareholders may also make optional cash purchases of common shares subject to certain limitations detailed in the prospectuses for the DRSPP. During the three months ended June 30, 2023, the Company issued 1,651 common shares under the DRSPP at a weighted average price per share of \$9.94, which generated \$16 thousand of proceeds. During the six months ended June 30, 2023, the Company issued 2,866 common shares under the DRSPP at a weighted average price per share of \$10.85, which generated \$31 thousand of proceeds. As of June 30, 2023, there was approximately \$47.8 million in common shares available for issuance under the DRSPP.

In January 2021, we established an "at-the-market" offering program (the "ATM Program") whereby, from time to time, we may publicly offer and sell our common shares having an aggregate maximum offering price up to \$100 million by means of ordinary brokers transactions on the New York Stock Exchange (the "NYSE"), in negotiated transactions or in transactions that are deemed to be "at-the-market" offerings as defined in Rule 415 under the Securities Act of 1933, as amended. Cantor Fitzgerald & Co., Barclays Capital Inc., BMO Capital Markets Corp., BofA Securities, Inc., BTIG, LLC, Citigroup Global Markets Inc., Regions Securities LLC, Stifel, Nicolaus & Company, Incorporated and Wells Fargo Securities act as sales agents under the ATM Program. The Company did not issue any shares under the ATM Program during the three and six months ended June 30, 2023. As of June 30, 2023, there was approximately \$77.5 million in common shares available for issuance under the ATM Program.

We expect to meet our short-term liquidity requirements generally through existing cash balances and availability under our credit facility and unsecured term loan. We believe that our existing cash balances and availability under our credit facility and unsecured term loan will be adequate to fund operating obligations, pay interest on any borrowings and fund dividends in accordance with the requirements for qualification as a REIT under the Code. We expect to meet our long-term liquidity requirements, such as hotel property acquisitions and debt maturities or repayments through additional long-term secured and unsecured borrowings, the issuance of additional equity or debt securities or the possible sale of existing assets.

We intend to continue to invest in hotel properties as suitable opportunities arise. We intend to finance our future investments with free cash flow, the net proceeds from additional issuances of common and preferred shares, issuances of common units in our Operating Partnership or other securities, borrowings or asset sales. The success of our acquisition strategy depends, in part, on our ability to access additional capital through other sources. There can be no assurance that we will continue to make investments in properties that meet our investment criteria. Additionally, we may choose to dispose of certain hotels as a means to provide liquidity.

We had no material off-balance sheet arrangements at June 30, 2023.

Dividend Policy

Our common share dividend policy has been to distribute, annually, approximately 100% of our annual taxable income. We suspended common share dividends after the March 2020 payment due to the decline in operating performance caused by the COVID-19 pandemic. The Company reinstated common share dividends during the fourth quarter of 2022. During the six months ended June 30, 2023, the Company declared total common share dividends of \$0.14 per share and distributions on LTIP units of \$0.14 per unit. There were no common share dividends declared during the six months ended June 30, 2022. We plan to pay dividends required to maintain REIT status. The amount of any dividend is determined by our Board of Trustees.

Chatham declared dividends of \$0.82812 per share of 6.625% Series A Cumulative Redeemable Preferred Shares during the six months ended June 30, 2023.

Inflation

Operators of hotels, in general, possess the ability to adjust room rates daily to reflect the effects of inflation. However, competitive pressures may limit the ability of our management companies to raise room rates. Inflation may also affect our expenses and costs of capital investments by increasing, among other things, the costs of construction, labor, employee-related benefits, food, commodities and other materials, taxes, property and casualty insurance and utilities.

Seasonality

Demand for our hotels is affected by recurring seasonal patterns. Generally, we expect that we will have lower revenue, operating income and cash flow in the first and fourth quarters and higher revenue, operating income and cash flow in the second and third quarters. These general trends are, however, influenced by overall economic cycles and the geographic locations of our hotels. To the extent that cash flow from operations is insufficient during any quarter, due to temporary or seasonal fluctuations in revenue, we expect to utilize cash on hand or borrowings under our credit facility to pay expenses, debt service or to make distributions to our equity holders.

Critical Accounting Estimates

Our consolidated financial statements have been prepared in conformity with GAAP, which requires management to make estimates and assumptions that affect the reported amount of assets and liabilities at the date of our financial statements and the reported amounts of revenues and expenses during the reporting period. While we do not believe the reported amounts would be materially different, application of these policies involves the exercise of judgment and the use of assumptions as to future uncertainties and, as a result, actual results could differ from these estimates. We evaluate our estimates and judgments on an ongoing basis. We base our estimates on experience and on various other assumptions that are believed to be reasonable under the circumstances. All of our significant accounting policies, including certain critical accounting estimates, are disclosed in our Annual Report on Form 10-K for the year ended December 31, 2022.

Item 3. Quantitative and Qualitative Disclosures about Market Risk.

We may be exposed to interest rate changes primarily as a result of our assumption of long-term debt in connection with our acquisitions and upon refinancing of existing debt. Our interest rate risk management objectives are to limit the impact of interest rate changes on earnings and cash flows and to lower overall borrowing costs. To achieve these objectives, we seek to borrow primarily at fixed rates or variable rates with the lowest margins available and, in some cases, with the ability to convert variable rates to fixed rates. With respect to variable rate financing, we will assess interest rate risk by identifying and monitoring changes in interest rate exposures that may adversely impact expected future cash flows and by evaluating hedging opportunities.

The Company estimates the fair value of its fixed rate debt by discounting the future cash flows of each instrument at estimated market rates. Rates take into consideration general market conditions, maturity and fair value of the underlying collateral. The estimated fair value of the Company's fixed rate debt at June 30, 2023 and December 31, 2022 was \$365.2 million and \$412.7 million, respectively.

At June 30, 2023, our consolidated debt was comprised of floating and fixed interest rate debt. The fair value of our fixed rate debt indicates the estimated principal amount of debt having the same debt service requirements that could have been borrowed at the date presented, at then current market interest rates. The following table provides information about the maturities of our financial instruments as of June 30, 2023 that are sensitive to changes in interest rates (dollars in thousands):

	2023	2024	2025	2026	2027	Thereafter	Total/ Weighted Average	Fair Value
Floating rate:								
Debt	—	—	\$90,000	—	—	—	\$90,000	\$ 90,000
Average interest rate	—	—	6.40%	—	—	—	6.40%	
Fixed rate:								
Debt	\$63,741	\$297,003	\$15,961	—	—	—	\$376,705	\$365,215
Average interest rate	4.85%	4.64%	4.25%	—	—	—	4.66%	

As of June 30, 2023, we estimate that a hypothetical 100 basis points increase in SOFR would result in additional interest of approximately \$0.9 million annually. This assumes that the amount of floating rate debt outstanding on our unsecured term loan remains \$90.0 million, the balance as of June 30, 2023.

Item 4. Controls and Procedures.***Disclosure Controls and Procedures*****Evaluation of Disclosure Controls and Procedures**

Under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, we have evaluated the effectiveness of the design and operation of our disclosure controls and procedures pursuant to Exchange Act Rule 13a-15(b) as of the end of the period covered by this report. Based on that evaluation, our Chief Executive Officer and Chief Financial Officer have concluded that these disclosure controls and procedures were effective to provide reasonable assurance that information required to be disclosed by us in reports we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to our management to allow timely decisions regarding required disclosure.

There have been no changes in our internal control over financial reporting that occurred during the last fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.
